The Project Management Methodology Assessment Report is prepared</p> <p><u>½ Day Site Visit</u> Your Wellington Project Management Consultant will return to your site to present your Project Management Methodology Assessment Report. This will include an assessment of current methodology strengths and weaknesses and practical recommendations for further development based on best practice</p>

### Our Services

A key criteria associated with attaining higher project management maturity is the application of a consistent, fit-for-purpose project management methodology. We are able to provide expertise guidance and support to you in the further development of your project management methodology. Our advice is based on practical real world experience using tried and tested tools & techniques that we ourselves have utilised and developed over many years. Our practical recommendations are supported by the Wellington Project Managers Toolkit - a complete range of tools and templates to successfully run projects

### Next Steps

Please contact us to discuss your current approach to running projects and the issues you wish to resolve or improvements you are looking to implement. We are able to provide best practice expert guidance to accelerate your methodology assessment and development. Our goal is to become your project management partner of choice as we have with so many organisations and we look forward to working with you. Please email or call us today.
